

# Recording Arts Major Course Requirements

---

## Recording Arts

Do you listen to recordings and want to create your own? Do you have a DAW on your laptop and can't seem to stop mixing and creating your own recordings? Recording Arts Majors have the opportunity to learn and experiment with industry standard technology, instruments and computer software. Through the Recording Arts Major, you will learn about microphones, audio engineering, mixing, mastering and working in the studio. Recording Arts Majors will work on projects from rehearsal to final mastered recording.
